## Useful information

1. This price list takes effect as from **01 January 2020** and supersedes all previous price lists.
2. **Public prices** €.Euro (VAT excluded)
3. All prices are **on Ex-Works basis**.
4. Orders are not accepted until they are confirmed in writing.
5. Leather and ecoleather upholstery light colors (white, beige and the like) can be easily marked by jeans and other colored apparels. This cannot be considered as a quality defect and is excluded from any guarantee.
6. COM customer's own material. Customers can supply their own fabrics. Fabric requirements, based on standard fabrics 140 cm wide, are listed in the column next to the product description. We cannot measure customer fabrics received in our warehouse  
We reserve the right to reject fabrics that we find unsuitable for upholstery.
7. Complaints of damages during transport **must be submitted to the carrier immediately.**
8. Returned goods are not accepted without prior written agreement.
9. We reserve the right to change the price, form, and appearance of the listed models.
10. We disclaim any liability for typographical errors and omissions in this price list.

**FORNASARIG 10Year**  
Warranty

All products are tested by Catas and **CERTIFIED EN1728:2013** or **BIFMA** for Contract use

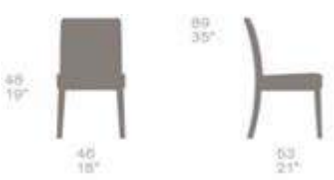

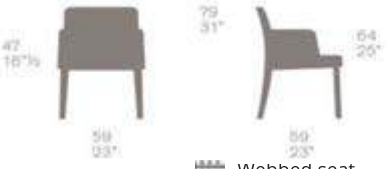

**AWARDED by Catas 4-years in a row** for innovation and reliability in seating manufacturing

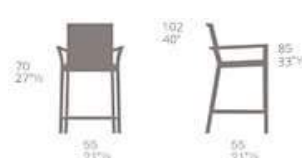

Wolfgang family production process **certified by "FSC"** the global association promoting the responsible management of forests worldwide

**For further details, we refer to our "general terms of sale" in force at any time**

<b>Design</b>	The Cato chair is designed to appear just as beautiful from the front as from behind. Expression of elegance and lightness the chair offer the maximum comfort with a unique three-dimensional shell bending technology.
<b>Frame</b>	Stable high-strength Ø16 X 2 Asform tube (four legs version), high-strength Ø22 X 2 Asform tube (central base with wheels version)
<b>Frame surface finish</b>	<u>Eco-Chrome</u> : Extra-strength bright chrome plating, approximately 20 - 25 µm. <u>Powder coating</u> : Highly scratch-resistant thermoset powder coating, approximately 80 – 100 µm coating thickness. Our powder coating finish has no solvents and release no amount of Volatile Organic Compounds (VOC) into the atmosphere.
<b>Shell</b>	Shell in plywood, curved with three-dimensional technology make sitting on the chair both relaxing and very comfortable.
<b>Upholstery</b>	The foams are always fire retardant and they fulfil the English fire norm BS 5852 Schedule 1 Part I, the French M4, the California Bulletin and the Italian M1.
<b>Safety and stress testing</b>	Drop test Dynamic <b>ANSI-BIFMA X5.1-2017/17</b> Seat and back fatigue test <b>EN1728</b>
<b>Environmental responsibility</b>	Cato multi-purpose chairs do not emit any concentrations of gas that are harmful to the environment or to health. VOC emissions are well below the limit value set from European legislation and fulfill these standards. A total of 76 % of components of Cato chair can be recycled and reused.
<b>Highlights</b>	<ul style="list-style-type: none"> <li>- Front upholstery with soft Line stitching.</li> <li>- Double foam layer on the seat for long seating comfort.</li> <li>- The ample 3D bent shell provides relief when seating.</li> <li>- A unique and graceful construction made of steel tube, combines light, elegant forms with structural strength</li> <li>- Cato counter and bars stool</li> </ul>

<b>Design</b>	Giubileo is a modern interpretation of the proportions and characteristics of classic taste. New chromatic finishings and fanciful claddings transform completely the intonation of use. The harmonic line, the broad and comfortable seat, the stackability of the side chair and armchair, make Giubileo the perfect collection for any situation. Available with 3 back options.
<b>Frame</b>	Beech from Slavonia certified <b>FSC forests</b> . FSC organization sets the standards for what is a responsibly managed forest, both environmentally and socially. FSC certification helps forests remain thriving environments for generations to come.
<b>Stackability</b>	Giubileo is stackable up to 6 pcs both in the chair and armchair version. Underseat pad integrated in the frame, protects the seat and the fabric when the chair is stacked.
<b>Upholstery</b>	The foams are always fire retardant and they fulfil the English fire norm BS 5852 Schedule 1 Part I, the French M4, the California Bulletin and the Italian M1.
<b>Gliders</b>	Plastic glides made from impact-resistant plastic for universal use. Felts glides available upon request.
<b>Certification</b>	<b>EN1728:2000</b> Seat and back fatigue test. <b>EN1728:2000</b> Seat and back static load test.

## HIGHLIGHTS ON THE DESIGN

<b>Design</b>	Thanks to the floating and nearly seamless connection from shell to frame defines a whole new integration, making the boundary between the frame and the seat hard to discern. More stackable than any other chair it sets new standards when it comes to lightweight and versatility. Registered design.
<b>Frame</b>	Stable full- high resistance steel sled-base diameter 11mm. The front bent traverse provide reinforcement to the design and is welded beneath the knee roll, thus retaining leg freedom.
<b>Seat and back</b>	3-dimensionally shaped ergonomic plastic seat and back made of impact and scratch-resistant <b>high-performance reinforced polyolefin resin</b> , make sitting on the chair both relaxing and very comfortable.
<b>Seat Upholstery</b>	The foams are always fire retardant and they fulfil the English fire norm BS 5852 Schedule 1 Part I, the French M4, the California Bulletin and the Italian M1.
<b>Gliders</b>	Anti-rotating plastic glides made from impact-resistant plastic for universal use. Felts glides available upon request.
<b>Certification</b>	ANSI/BIFMA X/1  ANSI/BIFMA X5.1
<b>Highlights</b>	<ul style="list-style-type: none"> <li>- Underseat pads, integrated in the frame, protect the seat when the chair is stacked.</li> <li>- More stackable than any other chair. Minimal stacking height ensures compact storage, this means reduced storage space requirements.</li> <li>- LINK X60 is lightweight, stable and with materials reduced to the max.</li> <li>- The seat is invisibly 8-times screwed to the frame, the high-quality surface is pleasant to touch and easy to clean.</li> <li>- Very compact on the floor. <b>Design</b>	The idea underlying the Link Outdoor project is lightness derived from its clean profile and the thin metal sheet mesh. An interpretation of outdoor space that conveys stylistic but essential refinement.
<b>Frame</b>	Stable full- high resistance steel sled-base diameter 11mm. and high-strength metal sheet mesh. The front bent traverse provide reinforcement to the design and is welded beneath the knee roll, thus retaining leg freedom.
<b>Seat and back</b>	The bent mesh make sitting on the chair both relaxing and very comfortable. Uphostered magnetic seat cushion with high-quality thermo-polymer underseats and Tempotest fabric treated for outdoor use.
<b>Surface finish</b>	The <b>steel is dip galvanized with a layer of zinc</b> and powder coated with a unique anti-corrosion process to withstand the elements. Available in elegant tone on tone seat and frame colour finish
<b>Gliders</b>	Anti-rotating plastic glides made from impact-resistant plastic scrued to the frame.
<b>Highlights</b>	<ul style="list-style-type: none"> <li>- The special gliders integrated in the frame, protect the seat when the chair is stacked.</li> <li>- Minimal stacking height ensures compact storage. <b>Design</b>	Link Table supports all the ways your people work: inside or outside a meeting room, sitting or standing, for long sessions or short bursts of creative energy. A table featuring exceptional dimensions thanks to its tension capability.
<b>Tops</b>	Oak wood veneer tops, finished with a clear coat of lacquer that is applied to the raw wood to enhance the natural characteristic of the wood and add protective coating. Available also in black or white acrylic.
<b>Large Tops</b>	Long tops more than 250cm in length require two or more separate tops. Inform us if you need to joint more tables.
<b>Legs</b>	Steel legs can be painted in the same colors of the top resulting in a stunning monochromatic finish.
<b>Power</b>	Power plug feed runs down leg to outlet. Power module is dual sided, allowing easy access from both sides. Contact factory for special power/data requirements.
<b>Gliders</b>	Soft felt gliders.
<b>Highlights</b>	<ul style="list-style-type: none"> <li>- Available in working and standing heights.</li> <li>- Easy to align and link.</li> <li>- Electronic solutions are available for easy access to power.</li> <li>- Power module is dual sided, allowing easy access from both sides.</li> <li>- Cables can be neatly managed through legs.</li> </ul>

<b>Design</b>	Moka is a seat with a soft and continuous line whose design is solved with wide and comfortable curves. An up-to-date technology of leather application with a hand-made attention for the details and for finishes are the main characteristics of this collection. The family comprehends a chair, a stool and a easy chair. The cladding can be in leather or fabric.
<b>Frame</b>	Beech from Slavonia certified <b>FSC forests</b> . FSC organization sets the standards for what is a responsibly managed forest, both environmentally and socially. FSC certification helps forests remain thriving environments for generations to come.
<b>Stackability</b>	The Moka chair is stackable up to 6 pcs. Underseat pad integrated in the frame, protects the seat and the fabric when the chair is stacked.
<b>Seat and back</b>	The bent plywood seat and back make sitting on the chair both relaxing and very comfortable.
<b>Upholstery</b>	The foams are always fire retardant and they fulfil the English fire norm BS 5852 Schedule 1 Part I, the French M4, the California Bulletin and the Italian M1.
<b>Gliders</b>	Plastic glides made from impact-resistant plastic for universal use. Felts glides available upon request.
<b>Certification</b>	<b>EN1728:2000</b> Seat and back fatigue test.

## HIGHLIGHTS ON THE DESIGN

Moka is truly an unusual chair; the unbroken curve that designs its form give it a light and elegant presence, which looks even more precious from the upholstered back.

Elegant piping upholstery.

# Wolfgang Metal

Luca Nichetto

## Design

With this project, Luca Nichetto has pushed the Wolfgang collection towards new and bold directions. Wolfgang Metal is inspired by the original model, but it replaces the wooden frame with a thin metal frame, while maintaining the seatback and seat of the original piece.

## Frame

Stable full- high resistance steel sled-base diameter 11mm. (sled version), high-strength Ø16 X 2 Asform tube (four legs version) The front bent traverse provide reinforcement to the design and is welded beneath the knee roll, thus retaining leg freedom.

## Seat and back

The three-dimensional bent oak plywood seat and back make sitting on the chair both relaxing and very comfortable. Lacquered in a great number of colors or upholstered with the greatest possible freedom of choice for fabrics.

## Upholstery

The foams are always fire retardant and they fulfil the English fire norm BS 5852 Schedule 1 Part I, the French M4, the California Bulletin and the Italian M1.

## Gliders

Anti-rotating plastic glides made from impact-resistant plastic for universal use. Felts glides available upon request.

## Certification

Wolfgang Metal **ANSI-BIFMA X5.1-2011/6** - Backrest strength test - Static  
Wolfgang Metal **ANSI-BIFMA X5.1-2011/18** - Leg strength test - Side application ANSI-BIFMA X5.1-2011/18  
Wolfgang Four **ANSI-BIFMA X5.1-2017/6** - Backrest strength test - Static

## Highlights

- Underseat pad, integrated in the frame, protects the seat and the fabric when the chair is stacked.
- Minimal stacking height ensures compact storage. This means reduced storage space requirements.
- Easy to align in rows.
- Wolfgang Metal is lightweight, stable and with materials reduced to the max.
- An ample and angled back provides relief when seating.
- Very compact on the floor. Only 52cm when linked center to center

# Wolfgang Wood

Luca Nichetto

<b>Design</b>	Wolfgang chair is a project whose curved wood, used for the back rest and the seat, stands and perfectly harmonizes with the solid wood of the legs and structure and it is an outspoken reference to Scandinavian design. Just the wood treatment has been the project inspiration whose concept born from the observation of the chair designed by Hans J. Wegner and from that one realized by Michael Thonet, both characterized by a peculiar use of the material.	
<b>Frame</b>	<b>Oak wood</b> from Slavonia certified <b>FSC forests</b> . FSC organization sets the standards for what is a responsibly managed forest, both environmentally and socially. FSC certification helps forests remain thriving environments for generations to come.	
<b>Seat and back</b>	The three-dimensional bent oak plywood seat and back make sitting on the chair both relaxing and very comfortable.	
<b>Upholstery</b>	The foams are always fire retardant and they fulfil the English fire norm BS 5852 Schedule 1 Part I, the French M4, the California Bulletin and the Italian M1.	
<b>Gliders</b>	Plastic glides made from impact-resistant plastic for universal use. Felts glides available upon request.	
<b>Certification</b>	<b>EN1728:2000</b> Seat and back fatigue test. <b>EN1728:2000</b> Leg forward static load test.	

## HIGHLIGHTS ON THE DESIGN

Thanks to the floating connection from frame to legs Wolfgang defines a whole new archetype.

The three-dimensional bent oak plywood seat and back make sitting on the chair both relaxing and very comfortable.

2. Article code
3. Quantity required
4. Finish and colour of structure in wood and/or metal
5. Type of filling if flame-retardant
6. Fabric code
7. Glides if non-standard
8. Desired date of shipment

## CHECK LIST FOR ORDERS FOR BASES, TOPS AND/OR COMPLETE TABLES

1. Name of article family
2. Base and/or top code
3. Quantity required
4. Finish and colour of structure in wood and/or metal
5. Laminate colour code
6. Finish and colour of wood top
7. Finish and colour of wood edge
8. Desired date of shipment

## WOOD

### WOOD VARIETY

**Beech is used**, unless otherwise specified.

Wood is a natural material. Its intrinsic beauty derives from variations in its colour, veining and structure. These characteristics are not defects. Exact matching of veining, grain and colour in products from the same series cannot be guaranteed. Clear finishes do not mask wood's natural features. Natural wood darkens over time, and with exposure to light.

### FINISHES & STAINS IN OUR SAMPLE COLLECTION

Stain Code	Description of stain
N	Natural beech
Z	Cherry
M	Walnut
R	Mahogany
T	Tobacco
W	Wengé
OAK-L	Whitened oak
OAK-N	Natural oak
OAK-O	Oak Oil

OAK-O Handmade Oil finish available on Oak wood products +8,00€. NET per unit.

Lacquered or RAL finishes +8,00€. NET per unit.

Finishes with non-standard gloss:

- Gloss finishes (50 gloss) +8,00€. NET per unit.
- Brilliant gloss finishes +16,00€. NET per unit.

Antiqued finishes +8,00€. NET per unit .

### WOOD FINISHES STAINS TO CUSTOMER SAMPLE OR RAL CLASSIC FINISHES

Under 40 pcs total a flat charge of 200.00€. NET will be added to the order total for each "stain to or Ral lacquer" be applied specifically to sample supplied by the customer.

Stains and finishes made to customer specification are always prepared with the greatest care. Any differences in colour shall in no circumstances constitute grounds for complaint.

## COVERING MATERIALS

### COVERING MATERIALS SUPPLIED BY CUSTOMERS

All our articles can be ordered with customer-supplied coverings.

**C.O.M.** (Customer's Own Material): in the price list, the price on the line C.O.M. refers to the customer-supplied covering material (fabric, faux leather) not requiring alignment.

For all fabrics whose position or pattern requires alignment, the price on line CAT B will be applied.

**C.O.L.** (Customer's Own Leather): refer to the price on line "Ecoleather" of the price list for products to be covered in customer-supplied leather. Consumption may be calculated by multiplying the consumption of fabric in metres by 2.5. The figure obtained is indicative and refers to excellent quality leather free of defects. Since the characteristics and varieties of leather may vary, the final result will depend exclusively on the material sent to us. We cannot be held liable if actual consumption differs from estimated consumption, or for any defects or other characteristics of the leather that may present after application.

 **m:** consumption of fabric and faux leather in linear metres is based on self-coloured material with no special patterns to align, a height of 140 cm, and for "even-numbered" quantities of each article. **For individual sample pieces, allow double the quantity of fabric.**

Always round up consumption figures to the nearest 50 cm. Please contact our customer service department with any queries.

Covering materials should be sent to our premises in Via San Giovanni 45, Manzano (Udine), Italy, freight prepaid. Materials arriving from countries outside the EC must be accompanied by a certificate of origin.

Rolls should be accompanied by our "Fabric Tracking Label" form duly completed.

Unless otherwise instructed, we reserve the right to apply the material received as we judge appropriate.

During production, covering materials are inspected to identify any imperfections. However, imperfections are not always immediately visible. We cannot take liability for any defects, discrepancies in shade, batch-to-batch variations or other imperfections on covering materials received from customers, or for delays in production caused by materials received.

Coverings are not measured by us. Any shortages of fabric may be notified only after **completion** of upholstery.

We reserve the right to reject any covering that in our view is unsuitable to upholster our products. In no case will we take liability for unsatisfactory results due to the use of unsuitable covering materials, or to defects that may appear subsequently as a result of unforeseen reactions with the expanded polyurethanes, glues or other materials used by us.

### REACTION TO FLAME

The customer shall have sole responsibility for ensuring the conformity of the materials sent with the fire prevention regulations in the customer's country.

### RETURN OF CUSTOMER'S OWN MATERIALS

Excess fabric, faux leather or leather sent to us will not be stored or returned unless expressly and clearly indicated on the purchase order, and on the rolls of material.

## GLIDES AND TABLE TOP DEVICE

### GLIDE TYPES

Type A plastic supplied as standard on finished seatings.

**ALIGNING TABLE TOPS** : for tables with a central column that have to be aligned, we can supply a special device already fitted to the tops. The device costs 30,00€. Net.

## PACKING

### SEATINGS

Seatings are supplied with a cardboard box and special protection suitable for shipment by lorry to the final destination. Where delivery requires transfers en route, or shipment by parcel service or by air, supplementary packing is recommended.

Below is a list of packing options with the corresponding cost **per box**.

EXTRA PACKING	Packing recommended where transfers or shipment by parcel service is involved.	12,00€. Net each box
AIR PACKING	Packing recommended for shipment by air: box with wooden frame.	60.00€. Net each box

### BASES AND TABLES

Unless otherwise specified, packing in a cardboard box with special protection is included in the price. For bases that could be damaged during transit, special packing, listed among the optional extras as "Multiple case packing", is available.

**MULTIPLE CASE PACKING:** Cases are constructed by arranging the tables or bases on top of each other to a maximum indicative height of about 130/140 cm. A charge of € 45.00 Net will be added to the invoice for each case required to pack the shipment.

### TABLE TOPS

Packing of table tops is not included in the price. Packing is in pallets only.

**MULTIPLE CASE PACKING:** Pallets are constructed by arranging the tops on top of each other to a maximum indicative height of about 130/140 cm. A charge of € 45.00 Net will be added to the invoice for each case required to pack the shipment.

# GENERAL INFORMATION, TERMS & CONDITIONS OF SALE

**Price list** valid from **01 April 2022**

**Prices:** to the public **EXW Manzano** (UD) - Italy, current Incoterms. Prices and surcharges are gross and do not include duties, taxes or installation of products.

## ORDERING

Orders may be forwarded by fax and/or e-mail. All orders must be made in writing.

All orders must be confirmed and accepted by us. A pro-forma invoice will be sent to the customer to confirm the order. Customers should check the pro-forma invoice and point out any discrepancies immediately. The pro-forma invoice is the definitive agreement between the company and the customer, and shall take precedence over all previous communications regarding the order.

## MODIFICATION AND CANCELLATION OF ORDERS IN PROGRESS

On acceptance by us, orders shall be considered definitive and may not be cancelled by the customer.

Acceptance of requests for modifications to orders already confirmed will depend on the stage of production of the article concerned, and on our ability to carry out the modifications requested. Costs relating to modifications and downtime will be invoiced to the customer in full.

## DATE OF SHIPMENT

The date of shipment shall be calculated from the date:

- when all information relating to the order is definitive;
- when special finishes, fillings, and countersamples to customer specification have been approved;
- if, for COM / COL orders, covering materials arrive at our premises in Manzano (UD), Italy, on the date agreed;

Should one or more of the above conditions not obtain, the date of shipment may also vary.

## DATE OF DELIVERY

The confirmed date of delivery should be regarded as indicative. Delays in delivery for reasons of force majeure not directly attributable to us, including strikes, industrial action by the work force, problems in the transport sector, war, rebellions, fire, accidents or government regulations, shall not constitute grounds for requests for penalty payments, requests for reimbursements or cancellation of orders.

## SAMPLING

On request, samples may be supplied and invoiced on the terms laid down by us. Payment will be required for the total amount invoiced. No credit notes will be issued for any samples the customer may decide to return for whatever reason.

## PAYMENT

Since our articles are manufactured to order, payment in advance will always be required.

For all agreements, please contact our customer service department. Goods shall remain our property until payment has been made in full.

## WARRANTY **Fornasarig 10 Year**

Fornasarig provides a ten-year warranty to the original purchaser on selected products (seating for indoor use). We guarantee that our products are free of defects relating to the assembly and gluing of the structure. This guarantee does not apply to fabrics supplied by us and/or the customer, or to the finishing of structures.

Claims under warranty shall be accepted under the following conditions: product was used under normal conditions at the workplace or in private areas, i.e. as a rule for a maximum of 8 hours daily.

Where such claims are made within two-years from the date of the invoice, we shall decide whether to repair or replace free of charge any goods under complaint should the goods prove to be defective by reason of assembly or gluing faults, provided the goods are returned to us in conformity with our instructions, and at the customer's expense. In case of discontinued products Fornasarig may repair or replace them with products that are equivalent to an original one.

After that period, due to anticipated natural wear, Fornasarig reserves the right to charge 10% of the invoiced value for each year of use (e.g. 30% after three years of use; 50% after 5 years of use etc.).

In no case shall our liability exceed the value of the original purchase. Any charges for repairs carried out by the customer must be agreed in advance and confirmed in writing by our customer service department.

This warranty shall be invalid if the goods are damaged by accident, through non-appropriate use or negligence, or have been modified or repaired by the customer without our authorisation in advance.

**Products that present defects must be removed from use at once.**

Fornasarig provides a TWO-year limited warranty to the original purchaser on **Outdoor products** (seating for outdoor use).

**Please ask our customer service department for information on how to maintain long-term functionality of our products.**

## RETURNS

We do not accept returns of goods unless we have issued authorisation and specific instructions for shipment in advance. Unauthorised returns will not be accepted. In no case will returns will be accepted of special orders, articles made and/or modified to order or articles sold at a special price. Any damage found to returned goods will be charged to the customer.

The customer shall be responsible for the good handling and integrity of materials delivered on a temporary basis.

Packaging for return must be carried out with due care, using the same materials used by us for shipment.

Materials sent on a temporary basis that are returned damaged will be charged to the customer at list price.

## COMPLAINTS

We shall not be liable for any damage or loss of goods during transport. Goods are shipped at the customer's risk after being carefully checked, packed and consigned to the carrier for delivery. Before accepting goods from the carrier, please inspect them carefully, and indicate any shortages or damage on the delivery note. Should any goods be damaged or missing, please communicate the complaint to the carrier at once. If the damage is not visible, and is identified only after unpacking, the customer should keep the packing and notify the problem to the carrier at once, requesting an inspection. Even if the goods are not used immediately, the customer must check them within 2 days after delivery and communicate immediately any complaints in writing.

Returns of goods damaged during transport must be accompanied by a full inspection note, drawn up by the carrier.

## GOVERNING LAW AND COURT OF COMPETENT JURISDICTION

These terms and conditions shall be governed by Italian law and the Court of Udine, Italy, shall be the court of competent jurisdiction.

## DIMENSIONS AND WEIGHTS

All dimensions quoted are total measurements. Dimensions and weights quoted should be considered indicative. We reserve the right to modify the dimensions, design and construction of our models at any time, with no obligation to inform customers in possession of our catalogues and price lists in advance. Dimensions indicated in this price list replace those published in previous product catalogues.

**COPYRIGHT** All our models are protected by international patents. Images of our models may not be used without our written consent.
