Scala XL

Design Anya Sebton

We're happy to introduce Scala XL – an enlarged version of Anya Sebton's influential soundabsorbent Scala. Scala XL is developed to improve the soundscape in large and noisy spaces such as assembly halls, auditoriums, lobbies, and shopping malls.

Specifications

Scala XL's interplay of shape and material has a powerful sound absorbing effect (Class A). The increase of size not only amplifies its acoustic capacity, but also affects its aesthetic qualities. Scala XL is available in two different versions: concave and convex shape.

Absorption

Measurements WxHxD (mm)

Convex

1150x2300x90
1150x1600x90

Concave

1150x2300x90 "Single"
850x2300x90 "Middle"
1002x2300x90 "Right"/ "Left"
1150x1600x90 "Single"
850x1600x90 "Middle"
1002x1600x90 "Right"/ "Left"

Convex
