

Cruso is a Belgian furniture manufacturer, offering warm and playful furniture created by internationally renowned designers. The company has adopted an eco-friendly production process, using local and sustainable raw materials, manufacturing in Europe and employing land transportation as well as compact packaging solutions.

Cruso products are simple and welcoming. They have been designed for demanding everyday use and are perfect for cosy homes or professional environments.

# NOTES.

BY JULIEN RENAULT

The NOTES collection designed by Julien Renault is an invitation to play with compositions and colours. It offers a solution for storage and is also suitable for displaying objects that have a great sentimental value.

The shelves are made out of solid wood and are fixed with a magnetic steel mount. The curved profile of the shelves creates a subtle graphic element that compliments any wall. NOTES is very versatile and appropriate for various displays.

As a complement to the shelves, the NOTES trays echo the same curve as the NOTES shelves. They deliver an added softness and solid wood warmth.

## DESIGN BY JULIEN RENAULT

With a fascination for industrial standards, Julien Renault is inspired by the beauty found in everyday objects and the traces of manufacturing processes.

His design practice is characterised by a clear approach focused on production process, materiality and a recognisable and strong aesthetic.

Based in Brussels, Renault's studio develops furniture and objects for various design brands. Additionally, the studio engages in works of creative direction and photography for design companies and designers.

Julien Renault's quality standards and sensibility have been moulded through his formation. Julien was trained as an industrial designer in ESAD Design & Art School. He worked at studio Bouroullec in Paris and graduated in Product Design at ECAL in Lausanne (2009). Soon after, he moved to Brussels and worked for Sylvain Willenz and Alain Berteau.

## NOTES SHELVES

### PRODUCT DESCRIPTION

Shelves made out of oak.  
Wall mount made out of steel.  
Available in 3 lengths (30 cm, 60 cm, 90cm).

## CHARTER OF ECOLOGICAL COMMITMENT

---

Cruso's objective is to constantly reduce its ecological footprint :

- . Designing durable and resistant products
- . Manufacturing in Europe
- . Reducing packaging and transport
- . Using sustainable materials

We want to offer the best design possible to our customers. It means having high quality standards for conception and production. That is why we care about working with talented industrial designers that share our philosophy. We make sure that their creations reach the market in the most responsible way possible. Our production process follows these simple rules : First, recycled or recyclable materials for both our products and their packaging. Secondly, European production and sourcing for limited CO2 emissions during transport.

As a young design brand, our duty is to deliver long-lasting furniture independently from trends. We believe in design simplicity and sustainable manufacturing.

Olivier STÉVENART, Founder
